## WHATEVER YOU HAVE TO SAY, FROM NOW ON YOU CAN DO IT WITHOUT USING YOUR HANDS.....

Hands-free use of your mobile phone , even whilst driving a car, whilst at the same time maintaining speech quality and confidentiality? Today, all this is made possible using Silicomp's new headsets.

### TECHNO 101 HEADSET

Microphone equipped with electronic filter cancels any background disturbing noise.

**Electronic acoustic protection reduces dangerous signals resulting from line disturbances/noises (fax, crackling, etc.) under safety thresholds.**

**A compact unobtrusive design thanks to the short, flexible microphone boom.**

**Temporary mute function allows the microphone to be switched off at any time by simply pressing a button.**

**Foam pads for ear-cushioning and microphone filtering.**

**Possibility to install a comfortable and anatomical rubber ear support for maximum stability.**

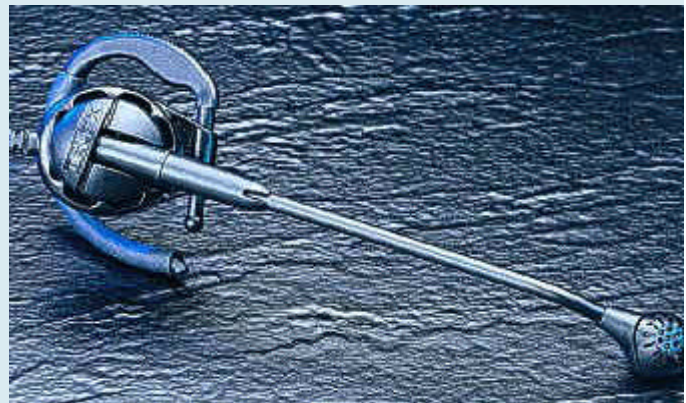

## **NOMAD HEADSET**

**Microphone provides excellent background noise cancellation.**

**Electronic filter cancels any disturbance/noise caused by transmissions from your mobile phone.**

**Rigid, extending microphone boom with adjustable height.**

**Ear hooks in three different sizes (small, medium, large).**

## **STRATUS ON THE GO HEADSET**

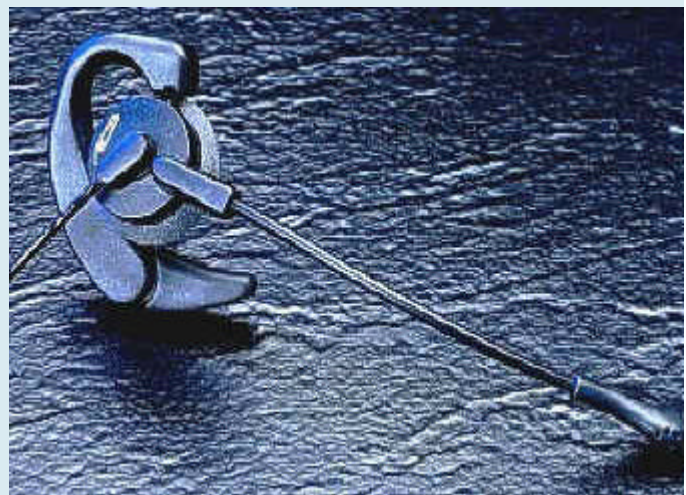

**Microphone provides excellent noise cancellation. Eliminates over 70% of background noise.**

**Possibility to install a comfortable and anatomical ear support or head band.**

**Fully flexible microphone boom.**

**Reinforced cable with extending coil cord.**

**Ear pad ensures maximum comfort.**
